Frontend Developer

SKILLS

Technical Skills	HTML, Css , React, Git, Tailwind, Express.js, Node js
Soft Skills	Adaptability, Friendliness, Ambitious, Reliable,

PROJECTS

Face-recognition-based-attendance-system: As a frontend developer, I played a pivotal role in the development of a Face Recognition Based Attendance System. My responsibilities included real-time face recognition implementation. I contributed to the project's success by making login page, Admin dashboard, Student Table .

Libraries used : • HTMl • Css • Js • PostgreSQL • OpenVino (GitHub Link)

EyeMate: As a frontend Developer designed and implemented intuitive user interfaces for browsing eyewear products, integrating features like product details, shopping cart functionality, and secure user authentication. By utilizing React's component-based architecture and state management, I ensured seamless navigation and enhanced user experience, contributing to the project's success in meeting client requirements..

Libraries used : • React • ExpressJs • MongoDB • Nodejs • Axios • RestAPI(GitHub Link)

Paiso.com: For the Phoenix Tech Fest hackathon, I collaborated on developing Paiso.com, a financial literacy platform. The project aims to empower users to make informed financial decisions through tools like Paiso.com Insights, Smart Invest, and Financial Mastery Courses. We also integrated 'Hari,' a Nepali chatbot, to guide users and enhance their learning experience. Additionally, the DemoTrade feature allows users to practice stock trading with virtual money, making financial education interactive and accessible

Libraries used : • React • Django • Gemini API • MySQL • REST API (GitHub Link)

Others:

- Exopy, Book Recomendation System and so on

ACHIEVEMENTS

Partificipant in Katchfest 2.0 Hackathon (Certiificate)

1st Runner Up in Fintech Hackathon(Phoenix College) (Certiificate)

CERTIFICATE AND TRANNING

One Shot Tailwind css by digital Pathsala (Certiificate)

Crafting and Deploying Portfolio on GitHub By CFC kathmandu (Certiificate)

Entrepreneur Connect particatation (Certiificate)

MERN STACK — 40 HOURS Tranning — CodroidHub (Certiificate)

EDUCATION

Bachelor of Information Technology, Lincoln University   Expected March 2025
